About Kolpak

Kolpak offers a wide range of energy-saving and environmentally-friendly products and features. We've designed our units for maximum cold holding performance with minimum environmental impact, all while saving you money on energy costs, operating costs and overall cost of ownership.

Kolpak Polar-Pak® System

Walk-in to convenience

Kolpak Polar-Pak is Kolpak's high quality self contained refrigeration units. Featuring the industry's simplest installation there's no need for a refrigeration technician or a plumber. Best for standard size applications, Polar-Pak is built with the same quality, craftsmanship, attention to detail and energy savings built into every Kolpak product.

Walk-ins

QUICK REFERENCE GUIDE

Kolpak Pre-Engineered

Walk-in to flexibility

When you require a walk-in for a larger size installation with greater flexibility, Kolpak Pre-Engineered is the solution. Made from the same quality panels and components Kolpak is renowned for, the Kolpak Pre-Engineered solution features ready made components that are ready to assemble. Compartment sizes available 6' x 6' to 10' x 24' in 1' increments. 7'6" or 8'6" panel heights and single or two compartment options are available. This results in faster ship times and a potentially more cost effective solution depending on your exact requirements.

Kolpak Engineered To Order (ETO)

Walk-in to custom

Recognized as the standard for quality, efficiency, durability and as the innovation leader. Kolpak ETO is a fully customized walk-in solution featuring the industry's best materials, craftsmanship and overall quality. Designed to precise specifications in a wide variety of configurations from large to small with many available options.

SOLUTIONS

Kolpak provides many of the operational solutions from Maniowoc Foodservice, a global company dedicated to bringing value to foodservice operators by equipping them with highly individualized real-world answers that enhance menus, service, profits and efficiency.

To learn how Maniowoc Foodservice and its leading brands can equip you, visit our global web site at www.manitowocfoodservice.com then find the regional or local resources available to you.

Kolpak R-Series

The revolutionary R-Series is just right for today... and tomorrow.

It features all of the industry-leading advances that together you'll find nowhere else. The

R-Series is dependable and innovative. And because of its super strong construction, it's an excellent investment. ETO only.

- Industry leader with the shortest lead-time — even during peak season
- Seven Standard panel configurations
- Five Metal finishes
- Five Refrigeration systems
- Numerous standard features and/or options

Standard Features and Benefits

Handle

Ergonomically designed door handle does not overlap the door jamb, eliminating misalignment difficulties.

Durable FRP Door and Jamb

Door perimeter, jamb, and threshold made of fiberglass reinforced plastic (FRP) to resist impact, rust, dents, and scratches.

- Retains its shape
- Unaffected by heat or cold
- Energy efficient

Digital Thermometer, Switch and Pilot Light

- Accurate digital temperature gauge clearly displays walk-in's temperature.
- Switch and pilot light alerts personnel of interior light being accidentally left on.

Crown Molding and Door Bumper

- Keeps your walk-in looking clean and new!
- Decorative and protective patent pending door bumper design

Sweep Gaskets

- Reduces energy wasting leaks with an airtight seal along door bottom.
- Remains flexible under extreme temperatures and use.

Heated Air Vent

- The vent eliminates vacuum and pressure inside the walk-in so the door can be opened easily.
- Factory installed and pre-wired for convenience.

Popular Options (ETO)

Air Shield

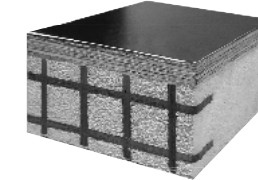

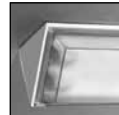

- Superior energy savings and temperature safety solution for your walk-in!
- Vertically mounted along the doorsill; resists warm air infiltration across the entire length of the door.
- Automatically turns on

Architectural Lights

Improve the view inside your walk-in!

- Impact resistant and energy efficient 26-watt wall mounted light!
- Horizontal ceiling light angles direct light into hard to light corners and shelving systems.

Structural

- Withstands loads up to 5,000 lbs per square foot
- Ideal solution for retrofit and remodeling applications
- Available in five metal finishes

Built-in Interior Ramp

- Shown with tread plate overlay as option.

Sliding Door

- Ideal NSF approved solution for narrow access kitchen areas!
- Door track allows for easy opening and tight positive seal closing.
- Features recessed interior and easy to pull exterior handle.

Flush Mount Refrigeration Package

- Space-saving flush mount refrigeration package allows the entire interior to be used for storage.
